Conforms to EN 1757-2

- Option of single and tandem fork rollers
- Additional entry and exit fork rollers guarantees for maximum stability and safety for transporting goods on slopes.

- Excellent galvanized whole casting hydraulic pump, robust and durable, with fine control of lowering speed and overload valve, low routine maintenance.

- Ergonomically designed handle with comfortable rubber grip allows the optimized safety as well as comfortable. Three position operational handle lever for lifting, transporting and lowering purposes
- Lower Position—to lower load, pull up on the finger tip control
- Neutral Position—to place finger tip control in this position during pulling the truck or load
- Lift Position—to raise load, push down on finger tip control, pump handle to raise the load

Hand Pallet Truck

- Option of different coating material for both steering wheel and fork rollers
- Polyurethane—Ideal for delicate floors with hard wearing and non-marking property, quiet and durable
- Nylon—low drag efforts, high resistance to chemicals, non-marking, preferred in food, fishing and chemical industries with smooth level floors.
- Rubber—Best choice for quiet and durable demands, ideal for smooth and rough floors.

Tandem fork rollers  
-----Ideal for heavy loads and uneven floors.
